

Minutes of the Second Ajust meeting in Copenhagen 28.2 2014

1. Memona.Majida@ahus.no
2. Katarina.vonBothmer-Ostling@regionhalland.se
3. Jens Christian Prien-Larsen
4. Helga Margrethe Elisabeth Gimbel, Ingebjørg Kinne
5. Holstad,Anja Døssland
6. Steen Elmelund Region Nordjylland
7. jonas.franklin@vregion.se,
8. Jørgen Bjarnesen; jba@regionsjaelland.dk
9. Claes Magnusson
10. Ingebjørg Kinne
11. Pia Teleman
12. Louise Thomsen Schmidt

10.00 - 10.30 Coffee and get together at Hilton

10.30 Patients included until the 31. December 2013. We will go through all centers regarding inclusion

11.30 Problems associated with the protocol and the follow-up

12.00 LUNCH

13.00 Specific problems related to the procedure - please bring your cases with you in order to share the problems with all

14.00 Publications - other studies associated to the protocol and presentations.

Ad 1:

So far all centers have included 309 patients. Three centers stills waits for the last patients to undergo surgery. The study will not include any more patients

Louise went though a study concerning ultrasound and the position of the sling according to the bladder neck. The study will be submitted as an abstract to IUGA congress 2014, Washington. Pia will join the study and include the patients from Lund as well.

We went through the problems about anchoring the mesh and other problems, also associated with the other mesh.

A short list of publications were ruled out, but this will be discussed on the next meeting

At the end, the conclusion is that the study is proceeding as suspected, and we will probably be able to evaluate the first data in the beginning of next year.

Best regards

Martin Rudnicki
