

Report from CoNARTaS meeting November 27, 2017 Hvidovre Hospital, Copenhagen,

NFOG Fund Grant NF16026

Participants: Denmark: Anja Pinborg, Anna-Karina Henningsen (AKH), Steen Rasmussen, Sara Malchau, Norway: Signe Opdahl, Sindre, Finland: Mika Gissler, Sweden: Christina Bergh, Ulla-Britt Wennerholm, Emma Norrman, Max Petzold

We thank NFOG for the support!

A one day data management meeting took place at Hvidovre Hospital November 27, 2017. All countries contributed with participants from the CoNARTaS groups as well as statisticians.

Status from each countries concerning new track was reported. All countries have now received most of the data for the "New Track". Norway, Finland and Denmark have uploaded data to Statistics Denmark (DST). Merging of the "Basic file" has been successful. Sweden have now got all data from the National Board of Health and Welfare, included the added data and Sweden is preparing the "basic file" for DST, the file will soon will be uploaded. Some data (two cancer files) are successfully uploaded at DST.

All countries presented their projects in pipeline for the New track. Sweden is preparing for the diabetes project, cardiovascular project and school performance in ART children and we decided that Denmark and Norway will apply for additional data from the Diabetes quality registers in the respective countries. Norway is preparing pregnancy complications and maternal cancer (all cancers and particular breast and ovarian cancer). Finland is preparing for psychiatric disorders. Denmark is preparing for factors contributing to the adverse perinatal outcome in singletons. In addition Sweden is working on the outcome of children born cryopreservation in natural and hormonal stimulated cycles and after vitrification.

Next meeting is planned to January 22, 2018, at Hotel Ocean in Copenhagen,

On behalf of the CoNARTaS

Gothenburg November 29, 2017
