

Participating in the Advanced Gynecological Ultrasound Course in Malmö, Jan 2025

Report

Marie Abel

I am grateful for the opportunity to attend the five-day advanced gynecological ultrasound course in Malmö, which proved to be both highly informative and practical. The field has advanced significantly since I started my residency, and this course provided an invaluable update on the latest techniques and guidelines. The structured training deepened my understanding of ultrasound applications in gynecology, as reflected in my improvement from the pre-course to the post-course assessment. I am confident that the skills and knowledge I gained will enhance my clinical practice, allowing me to provide more accurate diagnostics and better care for my patients. Thank you for making this learning experience possible.
